

This meeting has been organised by George Freeman

**The FULLER's Brewery** started over 350 years ago in the grounds of Bedford House on Chiswick Mall. It was successful and expanded until, in the 19<sup>th</sup> century, Smith and Turner had to seek a partner – Fuller. After various family difficulties it became Fuller, Smith and Turner in 1845 and the Griffin Brewery was set up and expanded. We will hear some of the family history and learn how the beer is made today and what influences the different flavours. Until 1900 they got their clean water from their own well but since then, like most of us, they use Thames Water. We will be in a working environment so please wear stout shoes as we will be walking on grills, etc. This is a tasting tour. W4 2QA [www.fullers.co.uk](http://www.fullers.co.uk)
