

## REMS at NOC, Southampton 12 October 2017

All of REMS on the trip. Guide Ian Folger is in far corner and Jackie Pearson talking to REMS

Deep sea automated vehicle ready again to go down the deepest trench on Earth

Ian Folger in front of photo of some of NOS's submercables and the research ship Discovery.

One sphere is for the batteries and the other electronics. Completely automated.

A core sample showing a tsunami 44,000 years ago between Norway and Iceland on the sea bed of less than 0.5 degrees.
